USER MANUAL

0.3ohm(Single) rated at 10-50W 30-50W(single battery mod) 10-35W(dual battery mod) ϕ 0.3mm Spacing:1.5-2mm

0.1ohm(Single) (rated at 220F-600F) ϕ 0.5mm Spacing:1.5-2mm

Compatible MODs
-IPVD2
-IPV4
-Joyetech eVic VT
-SX MINI ML Class
-SMOK Xpro
-SMOK Cube II 160W

Package Contents
1*ZPAL Zeus Tank
1*0.3 ohm coil pre-installed
1*0.1 ohm Ni200 coil extra
1*Protective Silicon Sleeve
1*User Manual

For other MOD, make sure the coil resistance is within the operating range of your MOD.

ZEUS

Specifications

Coil: 0.3 ohm (Single), 0.1 ohm (Ni200)
Wattage: 10-50watts(0.3ohm)
220F-600F(0.1ohm)
Airflow: Dual Adjustable Airflow
Material: 304 Stainless Steel
Drip Tip: Wide Bore
Cotton: Organic
Glass Tube: Quartz
Connection: 510 Stainless Steel
Capacity: 5.5ml
Size: 23X75mm
Weight: 76g

Important Safety Information

When you are using a fresh coil, make sure that you first saturate the coil with e-liquid before started to use it. If you do not take this step, the coil can burn or even catch on fire.
Do not let the tank become completely empty.
Refill the tank to avoid dry burning or damage to the coil.
This tank is top filling, please close top collar within 5 mins after refilling to prevent over soaking the cotton wick.

ZEUS

First Time Use

1. With the mouthpiece downwards, unscrew by gripping the bottom collar (There is a vacuum seal so unscrewing can feel a little resistant at first).
2. Add a few drops of e-liquid inside the coil to soak the cotton wick. This will prevent dry burning the coil.
3. When done, carefully line up the screw threads and screw all the way back to create a proper seal.

Filling E-liquid

1. Unscrew the top collar counterclockwise until it is completely detached.
2. Aim the nozzle into the side holes (Do not overfill the tank).
3. When done, carefully line up the screw threads and screw all the way back to create a proper seal.
4. With tissue, wipe away any liquid spillages or residues and wash/dry hands thoroughly.
5. Wait at least 3 minutes for e-liquid to settle and absorb into cotton wick.
6. Attach to compatible mod.

WARNING

This product is not intended for use by persons under 18-year-old, women who are pregnant or breastfeeding, or persons with or at risk of heart disease, high blood pressure, diabetes, or taking medicine for depression or asthma. Our products do not treat, diagnose, or cure any disease, physical ailment, or condition. Keep out of the reach of children and pets as ingestion of certain pieces can present a choking hazard.

ZEUS

Dismantle

1. First remove your tank from attached mod.
2. Carefully unscrew the base piece ensuring no pressure is applied to the glass tank during this process.
3. The glass tube can now be removed, this piece is a press fit so grip firmly and twist to remove. If you're struggling to get a firm grip a rubber band can come in handy.
4. At this point the drip tip can be removed from the top piece, this is really easy to do simply pull and it should come out. Be careful as it is held in place with a silicon o-ring which should be checked to ensure a tight fit between the top collar and drip tip installed.
5. The coil can now be removed, be careful if the unit has been used recently as there may still be some e-liquid left on this part!

Warranty

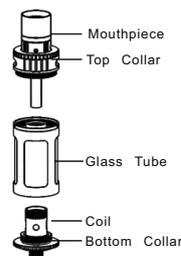

90 days (This warranty voids if this product is installed improperly or in an improper environment, overloaded, misused, opened, abused, or altered in any manner, or is not used under normal operating conditions or not in accordance with any label or instruction).
